

## **Why am I asked for a Username/Password when I try to download a document?**

The username/password protection on the documents exists on documents which, for a variety of reasons (i.e. restrictions, sensitivity) have not been approved for downloading on the Internet. If you need a copy of a document and you cannot download it, please email your request to the [Documentation Repository Work Order Desk](#) or call (256) 544-4490.
